

Sai Shewale

Pune, Maharashtra

+91 95524 77474 | saishewale.31@gmail.com | github.com/SaiShewale | linkedin.com/in/sai-shewale-1878ba242

Professional Summary

Computer Science Engineering student with hands-on experience in **data analysis, machine learning, AI research, and Python development**. Skilled in analyzing datasets, building AI-driven solutions, and extracting insights using **Python, SQL, Excel, Pandas, and Scikit-learn**. Passionate about recommendation systems, personalization, and generative AI.

Education

D Y Patil International University

B.Tech in Computer Science & Engineering

Aug 2022 – May 2026

Pune

Skills

Languages

Python, SQL, PHP, JavaScript

Data Analysis

Pandas, NumPy, Matplotlib, Excel, Google Sheets

Machine Learning

Scikit-learn, Data Preprocessing, Classification, Regression

Databases

MySQL

Concepts

AI Research, Recommendation Systems, Prompt Engineering, LLMs, Data Visualization

Tools

Git, GitHub, Jupyter Notebook, VS Code

Experience

Remsons Industries Ltd

Software & Automation Intern

May 2024 – Jul 2024

- Developed a Smart Gatepass Management System using PHP and MySQL for employee and visitor management.
- Designed SQL databases and generated structured reports with filtering and search functionality.
- Analyzed operational workflows and built an automation prototype to improve manufacturing efficiency.

G. S. Moze College of Engineering

AI Integration Intern

May 2025 – Jul 2025

- Conducted AI research on LLM applications and workflow automation.
- Processed structured datasets using Python for AI-driven applications.
- Assisted in prompt engineering and AI model evaluation for intelligent systems.

Projects

Electricity Consumption Data Analysis — Python, Pandas, Matplotlib

Performed exploratory data analysis on electricity consumption datasets, generated statistical insights, and visualized trends to identify peak usage patterns.

Indian General Elections 2024 Data Analysis — Python, SQL

Analyzed constituency-level election datasets using Python and SQL to identify voting trends and generate visual insights.

Intellect Code Visualizer — Python, AI

Built an AI-powered application that converts source code into simplified explanations and visual representations using LLMs and prompt engineering.

Certifications

AWS Certified Cloud Practitioner (CLF-C02)

Oracle Cloud Infrastructure 2025 AI Foundations Associate

Microsoft Azure AI-900: Azure AI Fundamentals

Front End Development – HTML (Great Learning)
