Professional Summary

Computer Science Engineering student with hands-on experience in **AI, machine learning, automation, and full-stack development**. Skilled in building real-world systems using **Python, REST APIs, and workflow automation tools**.

Education

D Y Patil International University
B.Tech in Computer Science & Engineering

Aug 2022 – May 2026
Pune

Skills

Languages	Python, PHP, HTML, CSS, JavaScript
Libraries	Pandas, NumPy, Scikit-learn, Matplotlib, OpenCV
Databases	MySQL
Tools	n8n, GitHub, Excel, Cloud Platforms
Concepts	Machine Learning, REST APIs, Automation, OOP, Computer Vision
Certifications	

AWS Certified Cloud Practitioner (CLF-C02)
Oracle Cloud Infrastructure 2025 AI Foundations Associate
Microsoft Azure AI-900: Azure AI Fundamentals
Front End Development – HTML (Great Learning)

Experience

Remsons Industries Ltd
Software & Automation Intern

May 2024 – Jul 2024

- Developed a **Smart Gatepass Management System** using **PHP, MySQL, HTML, CSS, JavaScript** with role-based authentication and real-time tracking.
- Designed an **admin dashboard** with filtering, reporting, and print-ready outputs using **PHP and MySQL**.
- Built a **sequential LED prototype** using **Arduino and Embedded C** to automate assembly workflow and reduce errors.

G. S. Moze College of Engineering
AI Integration Intern

May 2025 – Jul 2025

- Built **AI automation workflows** using **n8n** integrated with a custom MCP server.
- Developed **AI-agent systems** using **LLMs, APIs, and structured pipelines** for intelligent task execution.
- Learned and implemented **MCP (Model Context Protocol) architecture** and **workflow automation using n8n** for real-world use cases.

Projects

Smart Gatepass Management System — *PHP, MySQL, HTML, CSS, JS*

Built a role-based system to manage entry/exit records with real-time monitoring and admin control using a centralized database.

Electricity Consumption Study — *Python, Matplotlib*

Analyzed electricity usage data using Python and visualized trends to identify peak demand patterns.

AutoCare Garage Assistant — *n8n, Google Sheets, Gmail API*

Automated service bookings, managed customer data in Google Sheets, and sent email notifications via Gmail API.

Share Market Analysis Bot — *n8n, News API, Yahoo Finance API, AI*

Generated market insights by integrating financial data from Yahoo Finance API and news sentiment using News API through automated workflows.
