

Sai Shewale

Pune, Maharashtra

+91 95524 77474 | saishewale.31@gmail.com | github.com/SaiShewale | linkedin.com/in/sai-shewale-1878ba242

Professional Summary

Computer Science Engineering student with hands-on experience in **AI, machine learning, automation, and full-stack development**. Skilled in building real-world systems using **Python, REST APIs, and workflow automation tools**.

Education

D Y Patil International University

B.Tech in Computer Science & Engineering

Aug 2022 – May 2026

Pune

Skills

Languages

Python, PHP, HTML, CSS, JavaScript

Libraries

Pandas, NumPy, Scikit-learn, Matplotlib, OpenCV

Databases

MySQL

Tools

n8n, GitHub, Excel, Cloud Platforms

Concepts

Machine Learning, REST APIs, Automation, OOP, Computer Vision

Certifications

AWS Certified Cloud Practitioner (CLF-C02)

Oracle Cloud Infrastructure 2025 AI Foundations Associate

Microsoft Azure AI-900: Azure AI Fundamentals

Front End Development – HTML (Great Learning)

Experience

Remsons Industries Ltd

Software & Automation Intern

May 2024 – Jul 2024

- Built a **Smart Gatepass System** using **PHP, MySQL, HTML, CSS, JavaScript** with authentication and tracking.
- Developed an **admin dashboard** for reporting, filtering, and print-ready outputs.
- Created an **Arduino-based LED prototype** to automate assembly workflows.

G. S. Moze College of Engineering

AI Integration Intern

May 2025 – Jul 2025

- Developed **AI automation systems** using **Python, FastAPI**, and a custom MCP server.
- Built **AI-agent workflows** using **LLMs, APIs, and JSON pipelines** for task automation.

Projects

Autonomous Car Parking Using Reinforcement Learning — Python, Q-Learning, Pygame

Developed an RL-based parking system where an autonomous vehicle learns optimal parking strategies using Q-Learning.

Intellect Code Visualizer — React, Spring Boot, FastAPI, Ollama, AI

Built an AI-powered platform that converts source code into explanations, flowcharts, narrated slides, and automated explainer videos using LLMs.

Electricity Consumption Study — Python, Matplotlib

Analyzed electricity usage data using Python and visualized trends to identify peak demand patterns.

AutoCare Garage Assistant — n8n, Google Sheets, Gmail API

Built an automated workflow to handle service bookings, store customer data in Google Sheets, and send real-time email notifications using Gmail API.

Share Market Analysis Bot — n8n, News API, Yahoo Finance API, AI

Generated market insights by integrating financial data from Yahoo Finance API and news sentiment using News API through automated workflows.
